WORK EXPERIENCE

Mastek Limited

Sr. Software Engineer   March 2021 - Present

Projects-

LifeLabs:

- Implemented responsive and interactive user interfaces using React.js, resulting in improved user experiences and customer engagement.
- Collaborated with cross-functional teams to design and develop elegant frontend solutions for various pages to create intuitive and visually appealing user interfaces
- Enhanced accessibility by implementing multi-language support for boosting customer reach
- Worked closely with the UI/UX team to ensure seamless integration of designs.
- Resolved critical frontend and backend issues and optimized application performance for a smoother user experience.

Color Street:

- Crafted reusable React components to create intuitive and visually appealing user interfaces
- Written unit test cases with Jest to ensure robustness and reliability of frontend applications.
- Implemented frontend logic to handle user interactions and data presentation effectively.
- Collaborated with the backend team to consume APIs and ensure smooth data flow between frontend and backend.

EDUCATION

University Institute of Engineering and Technology Kanpur, India

Master of Computer Application - 72%   July 2017 - July 2020

PERSONAL PROJECT

E-commerce Store ↗

- Implemented search, filtering, user authentication, and JWT-based security.
- Enabled cart functionality, payment processing, and order placement for users
- Leveraged Node.js, Express.js & MongoDB for backend and React, CSS, & React Redux for frontend and state management.

Kids Mosquito Killer Game ↗

- Developed an interactive JavaScript-based game using React and CSS
- It is an interesting game which anyone can play, we can kill mosquito and can see our scores
- It has difficulty levels we can choose easy, medium, and hard levels.
